

## Pipe manufacturers converge at India's first ever multiproduct open house of Rajoo

**The success of this pioneering initiative emphasises the company's belief in innovation; be it innovation in product, innovation in technology or as in this case, innovation in approach.**

Unprecedented response to a unique event and that too in Rajkot! Over 180 professionals representing 90-plus companies PAN India, witnessed this revolution powered by Rajoo and Bausano. It was an event like never before as visitors were treated to something that was magnanimous in display ... live demonstrations of a range of machines that redefine manufacturing of high performance pipes.

As expected, the star performer of the show was the Twin Screw CPVC Pipe Plant running at 130kg/hr, pipe OD of 28.6mm, pipe thickness of 2.12mm. Most visitors have not been an eyewitness to such a spectacle – a working CPVC Pipe Plant that too which started from scratch just in under 5 minutes with less than 4 kg scrap. Overriding another hurdle, Rajoo successfully showcased its own and indigenous raw material compound for the CPVC machine. Standing tall, Rajoo Engineers is the first Indian company to successfully demonstrate a CPVC pipe machine in an Open House.

Twin Screw PVC Pipe Plant enthralled the audience when it was being operated at a capacity of 1000 kg/hr, never before seen in India. The pipe OD was 400mm and wall thickness of 16.2mm. This high output plant will now be shipped to Africa.

With this open-house, Rajoo marked its strong presence into the market of Drip Irrigation pipe plant. The demonstrated line was running at 170kg/hr with a speed of 80 MPM, 200 dripper insertions/min, with thickness being 0.7mm.

The infrastructure, capabilities and expertise highlighted by Rajoo overawed the audience; the Shree Yantra's tooling and precision machining impressed on clearly highlighting the Rajoo approach of 'global and 'at affordable prices.
