PRESS RELEASE

FOR IMMEDIATE RELEASE

29th March 2011

RAJOO ENGINEERS WITH ITS COLLABORATORS AND PARTNERS SHOWCASE AT PLASTIVISION 2011

After achieving stupendous success at K 2010,
now Rajoo Engineers along with their
collaborators and partners showcase innovative
technologies for India at Plastivision 2011

For Rajoo, the merger of Wonderpack, technical collaboration
with Hosokawa Alpine, Germany and a joint venture with Bausano
& Figli, Italy has made 2010 a landmark year.

After achieving stupendous success at K 2010, now Rajoo
Engineers along with their collaborators and partners showcase
innovative technologies for India at Plastivision 2011, at Mumbai
between 20th and 24th January, 2011.

Rajoo's 220 sq m stand B1-1 in Hall 1, at Plastivision 2011 would provide a perfect blend of global technology, Indian manufacturing abilities coupled with the acclaimed 'Rajoo ethos' of quality service.

Sheet Extrusion and Thermoforming Solutions

The combined entity of Rajoo Engineers and Wonderpack continues to leverage respective strengths, benefiting customers by way of the most efficient sheet extrusion and thermoforming solutions, backed by a proven support network.

Blown Film Extrusion Solutions

Experts from Rajoo and Hosokawa Alpine, Germany - both companies being long-established manufacturers of blown film lines - would be present to understand your specific needs and evolve the most cost effective and optimised blown film solutions, something that the Indian industry has been long waiting for! As for the road ahead... both companies are now developing a new

product line of blown film systems. It is planned to combine the time proven machine assemblies and components of both manufacturers to form new hybrid

systems on a higher quality level and simultaneously at attractive price levels.

RAJOO
EXCELLENCE IN EXTRUSION

Pipe Extrusion Solutions

A PVC pipe extruder from Bausano, Italy - one of the most reputed pipe and profile extrusion machinery manufacturers in the world - would have one of the many machines on display. With this JV (based in Rajkot), Rajoo and Bausano will revolutionise pipe manufacturing technology in India. The Indian processors who currently use short extruders (18-20 L/D) will now be offered Rajoo-Bausano 30 L/D extruders to enhance melt homogenisation at much higher output levels using similar size extruder and motor ratings. Experts from Bausano, Italy would be especially there to understand and address concerns of the users.

Come to our stall to witness the 'Excellence in Extrusion...and More'!

Thick PE Sheet Extrusion Systems

Rajoo with its strategic tie up with DIPIEMME Srl, Italy - a company with over 3 decades of experience, will bring to the Indian market thick PE Sheet extrusion lines to produce drainage dimple sheet, corrushet, bubble film, sheets, plates, and more...

RAJOO
EXCELLENCE IN EXTRUSION

About Rajoo

Based in Rajkot, Rajoo Engineers Limited, having made a modest beginning in 1986, has today emerged as an undisputed global player in blown film and sheet extrusion lines – both for solid and foamed applications. Owing to its focused efforts in blown film, sheet extrusion lines and thermoformers , the Company enjoys premium market position in this segment. Being a technology driven Company, product innovations, world-class quality, state-of-the-art workmanship, increased energy efficiency and high levels of sophistication and automation have become the hallmark of Rajoo products during all these years, positioning the Company's products on a global platform, competing with the established world leaders. With representations in many countries of the world and customers in over 50 countries, the Company's exports have multiplied after its debut in the international market in 1990. (www.rajoo.com)
