**CONSISTENTLY REDEFINING ENGINEERING  
EXCELLENCE: RAJOO ENGINEERS LIMITED SECURES  
THE PRESTIGIOUS SIES SOP STAR AWARD 2025 FOR  
PROEX PENTAFOIL, SETTING NEW BENCHMARKS IN  
BLOWN FILM EXTRUSION TECHNOLOGY.**

Rajoo Engineers Limited continues to lead the way in plastic extrusion technology, reinforcing its dedication to providing high-quality, energy-efficient, and sustainable solutions for the global packaging industry. This award is a testament to the company's relentless pursuit of excellence and technological advancement.

Mumbai, February 18, 2025 – Consistently redefining film excellence – Rajoo Engineers Limited, a global leader in plastic extrusion technology, has been honored with the prestigious SIES SOP Star Award 2025 in the category of Packaging Machineries/Systems for its latest PROEX Series – Pentafoil High-Performance Five-Layer Co-Extruder Blown Film Line. This recognition underscores Rajoo's commitment to innovation, sustainability, and engineered excellence.

The PROEX Series represents the next generation of advanced blown film extrusion machinery, engineered to meet the evolving demands of the flexible packaging industry. Designed with state-of-the-art technology, this high-performance co-extrusion system delivers superior film quality, enhanced process efficiency, and sustainable production solutions. With a focus on precision, energy efficiency, and advanced automation, the PROEX Series sets new benchmarks in the industry.

**PROEX Series - High Performance Five Layer Co-Extruder Blown Film Line**

On receiving this accolade, Khushboo Doshi, Managing Director of Rajoo Engineers Limited, stated: "Innovation is not just about technology; it's about creating a sustainable future. At Rajoo, we engineer excellence with purpose, ensuring our solutions drive progress while embracing responsibility."

**About Rajoo:**

Rajoo Engineers Limited, founded in 1986 and headquartered in Rajkot, has evolved into a prominent global player in blown films, sheet extrusion lines. Through a dedicated focus on blown film, sheet extrusion lines, thermoformers and extrusion coating and laminating lines, the company has attained a prestigious market position. Driven by technology, Rajoo is renowned for its product innovations, world-class quality, state-of-the-art workmanship, enhanced energy efficiency, and sophisticated automation, distinguishing its offerings on a global scale. With a presence in numerous countries and a customer base spanning over 78 nations, the company's exports have surged since its international debut in 1990.
