Rajoo Engineers Limited Unveils Rajkot Facility Expansion, Boosting Manufacturing Capacity

Published on April 19, 2024

Rajkot : Rajoo Engineers Ltd, a pioneering force in the field of plastic processing machinery, proudly announced the inauguration of its expanded facility in Rajkot. This expansion marks a significant milestone in the company's journey, as it triples its manufacturing capacity to meet growing demands and enhance operational efficiency. The expansion is a spacious structure on the adjacent 28,210 square feet of land acquired last August. The expanded facility will increase the manufacturing capacity by 30%. Dedicated space for Quality control will help the company to enhance the customer experience.

The company has made a significant investment in the factory shed, which spans across 18,000 square meters and stands at a height of 100 feet. This investment underscores the company's commitment to innovation, quality, growth, and customer satisfaction. Equipped with advanced technology, the expanded facility is poised to revolutionize the production landscape, catering to diverse global requirements with unparalleled precision and reliability.

On the special occasion, R N Doshi – Chairman of Rajoo Engineers Limited said, "The opening of expansion of our Rajkot facility marks another important milestone in our journey. Our unwavering focus remains on delivering top-quality products to our national and international clients. This inauguration reflects our steadfast dedication to innovation, quality, and sustainable growth, marking a significant leap forward for Rajoo Engineers."

The successful completion of this expansion project symbolizes a promising step forward for all stakeholders. It paves the way for enhanced productivity and operational excellence. Rajoo Engineers looks forward to continuing their successful journey with renewed vigor and determination.

The extended facility will produce domestically designed and assembled machinery, aligning with India's vision of becoming a global manufacturing hub. This embodies the spirit of import substitution and the 'Make in India' initiative. Through this advancement, Rajoo strengthens its commitment to innovation and excellence, propelling the nation towards self-sufficiency in manufacturing.
