

# Rajoo Engineers Secures the Prestigious SIES SOP Star Award 2025 for PROEX Pentafoil

Consistently redefining film excellence - Rajoo Engineers Ltd., a global leader in plastic extrusion technology, has been honoured with the prestigious SIES SOP Star Award 2025 in the category of packaging machinery / systems for its latest PROEX Series - Pentafoil High-Performance Five-Layer Co-Extruder Blown Film Line. This recognition underscores Rajoo's commitment to innovation, sustainability and engineered excellence.

PROEX Series - Pentafoil high-performance five-layer co-extruder blown film line.

The PROEX Series represents the next generation of advanced blown film extrusion machinery, engineered to meet the evolving demands of the flexible packaging industry. Designed with state-of-the-art technology, this high-performance co-extrusion system delivers superior film quality, enhanced

process efficiency and sustainable production solutions. With a focus on precision, energy efficiency and advanced automation, the PROEX Series sets new benchmarks in the industry.

On receiving this accolade, Khushboo Doshi, Managing Director, Rajoo Engineers Ltd. says, "Innovation is not just about technology; it's about creating a sustainable future. At Rajoo, we engineer excellence with purpose, ensuring our solutions drive progress, while embracing responsibility."

## **OPaL Wins Global Safety Summit (GSS) Safety Award Setting New Standards in HSE Excellence**

**O**NGC Petro additions Limited (OPaL) has been honoured with the Global Safety Summit (GSS) Safety Award 2024 in the Large Enterprises category. This prestigious recognition was conferred by the World Safety Forum and the United Nations Global Compact Network at the 12<sup>th</sup> Global Safety Summit held in New Delhi on 23<sup>rd</sup> December, 2024. The GSS Award is considered as one of the

Team HSE of OPaL with the GSS Safety Award.

most credible and esteemed awards worldwide; this year's International GSS Award 2024 was organised at the House of Lords, UK Parliament, London.

This is the first time that OPaL has competed in the category of Safety Award at National level and emerged as the winner. Gurinder Singh, Managing Director says, "This recognition is a testament to the relentless efforts of our team in fostering a culture of safety and ensuring the highest standards of HSE practices. At OPaL, safety is not just a priority, but a core value that guides our operations every day."

"We are committed to upholding these standards and setting new benchmarks in safety performance," says Arup Jhampri, Chief Operating Officer of OPaL. ■■
