Rajoo Engineers Acquires Majority Stake in Kohli Printing & Converting Machines

October 15, 2025 Off  By SEBASTIAN REISIG

Rajoo Engineers, a leading Indian extrusion machinery manufacturer, has acquired a **60% stake in Kohli Printing & Converting Machines**, making Kohli a subsidiary and expanding Rajoo's global presence in packaging technology.

The move strengthens Rajoo's market position by combining its **film extrusion systems**—such as Foilflex, Multifoil, and Lamina—with Kohli's **printing and converting expertise**, enabling a complete value chain offering for packaging converters worldwide.

Rajoo Group Chairman **R.N. Doshi** said the partnership aims to make India a global hub for **integrated packaging technology solutions**, while Kohli Managing Director **Kaku Kohli** noted that the collaboration merges "technologies, knowledge, and strategic strengths" to deliver flexible, high-performance systems.

The acquisition underscores a wider **industry trend toward consolidation and strategic partnerships**, as packaging equipment manufacturers seek to enhance competitiveness and provide comprehensive solutions to global customers.
