

## Rajoo Bansano - Leading Manufacturing of WPC Machines

Every great manufacturing accomplishment is a fine blend of two ingredients – **"Technology and Infrastructure"**.

**R**ajoo Bausano Extrusion Pvt. Ltd. is a classic example of one such initiative. Rajoo Engineers Ltd. has entered into a Joint Venture with Bausano & Figli SpA, Italy to manufacture and market pipe and profile extrusion lines including for wood plastic composite in India, with a special emphasis on African, Gulf and SAARC markets.

Rajoo Engineers Ltd. is a leading and one of the fastest growing manufacturers of Plastic Extrusion Machines in India. Having commenced its operations in 1986, Rajoo is today considered as an undisputed global player for complete solutions provider for film extrusion, solid and foam sheet extrusion, thermoforming, non-woven plant and round & flat drip irrigation pipe plant. The biggest testimony of customer satisfaction for Rajoo is that during the past

decade, 50% of the sales are generated by repeat orders from existing customers. Rajoo is equipped with prestigious certification like ISO: 9001: 2000 and it is the first plastic processing machinery manufacturer in India selling 'CE' conforming machines complying fully with EEC safety regulations, a mandatory requirement for plants operating in Europe.

Bausano & Figli SpA, Italy was established in 1946. The company has 68 years of rich experience in plastic processing machinery. Bausano & Figli was the first company in the world to develop the counter rotating twin screw extruder. It's state of the art manufacturing facilities are located at Rivarolo Canavese & Marnate in Italy and Sao Paulo in Brazil. In 1982, Bausano innovated and patented the revolutionary transmission system, known as

MULTIDRIVE, with enormous advantages in terms of the durability, performance of the extruder and energy savings.

Rajoo Bausano Extrusion Pvt. Ltd., the new JV Company is a combination of Rajoo's world class infrastructure and Bausano's sublime pioneering technology. Through this unique JV, customers will have world class technological products at affordable price levels.

### Product Range

FLOWEX	: Twin screw uPVC & CPVC pipe plants
GRANULEX	: PVC compounding lines
WOODPLEX	: WPC profile and board lines
PROFILE	: uPVC Profile lines
TUBEX	: PVC blood pouch and medical tube lines

## Malaysia's 2,000 furniture manufacturers

**M**alaysian furniture manufacturers have come a long way from the time when the focus was on the domestic market. Malaysia is now a major force in the international furniture sector.

Last year, Malaysia's furniture exports for the year to November were valued at about RM8.6 billion with products produced by over 2,000 furniture manufacturers. The top export destinations were the US, Singapore, Japan, Australia, the UK and India.
